**GOLDEN FAME RESOURCES CORP.  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2011**

---

**Background**

The following management discussion and analysis of the results of operations and financial condition ("MD&A"), prepared as of June 29, 2011, should be read in conjunction with the condensed consolidated interim financial statements of Golden Fame Resources Corp. (the "Company") for the period ended March 31, 2011, as well as the audited consolidated financial statements for the period ended December 31, 2010 and accompanying notes thereto. The condensed consolidated interim financial statements are prepared in accordance with International Financial Reporting Standards and this discussion includes the results of the Company's subsidiaries, Fame Oriented Holdings Ltd. and Golden Fame (USA) Inc.

During the period ended March 31, 2011, the Company's critical accounting estimates, significant accounting policies and risk factors have remained substantially unchanged and are still applicable to the Company unless otherwise indicated. All amounts are expressed in Canadian dollars unless noted otherwise.

As of January 1, 2011, the Company adopted International Financial Reporting Standards ("IFRS") and the following disclosure, and associated condensed interim financial statements, are presented in accordance with the International Accounting Standard 34, Interim Financial Reporting. The comparative periods for fiscal 2010 have been restated in accordance with IFRS.

**Cautionary Note Regarding Forward Looking Statements**

Certain statements contained in this MD&A constitute forward-looking statements. Such forward-looking statements involve a number of known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made, and readers are advised to consider such forward-looking statements in light of the risks set forth below.

**Description of Business**

On October 21, 2010, the Company completed its Qualifying Transaction which involved the acquisition of 87.5% of the issued and outstanding shares of Fame Oriented Holdings Limited ("Fame") and changed its name to Golden Fame Resources Corp. to better reflect its new business. Fame was incorporated in the British Virgin Islands ("BVI") under the BVI Business Companies Act on June 24, 2009. The transaction was recorded as a reverse acquisition ("RTO"), as the control of the Company was acquired by the corporate officers and former shareholders of Fame. Although legally GFA is regarded as the parent or continuing company, Fame is treated as the accounting acquirer under International Financial Reporting Standards ("IFRS"). Consequently, the Company is deemed to be a continuation of Fame and GFA is deemed to have been acquired in consideration for its issued and outstanding shares prior to the RTO.

The Company's new trading symbol is "GFA". The Company is engaged primarily in the business of evaluating, acquiring and exploring natural resource properties.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2011**

---

On October 21, 2010, the Company issued 16,000,000 common shares to BNR and EA at a deemed price of \$0.15 for Fame's 10,000 common shares, which resulted in the BNR and EA holding approximately 75% of the outstanding shares of the Company. A finder's fee of 1,016,667 common shares, were issued to an arm's length party in connection with the Transaction.

The Transaction was accounted for as a reverse acquisition, as the control of the Company was acquired by BNR and EA. Although legally, the Company is regarded as the parent or continuing company, Fame is treated as the accounting acquirer under IFRS. Consequently the Company is deemed to be the continuation of Fame, of which the 10,000 issued and outstanding common shares of Fame have been restated using the exchange ratio established in the Acquisition Agreement to arrive 16,000,000 common shares issued to effect the Transaction. The net liabilities of Canfe prior to the Transaction have been accounted for as a recapitalization in the consolidated financial statements.

Concurrent with the transaction, Fame changed its year end from May 31 to December 31. The audited consolidated financial statements of the Company for the seven months ended December 31, 2010 include the operations of Fame and its subsidiary from June 1, 2010 to December 31, 2010 and the operations of Canfe from October 21, 2010 to December 31, 2010.

Under reverse takeover accounting, 6,278,942 common shares issued, which includes the 5,262,275 common shares issued and outstanding prior to the Transaction and the 1,016,667 common shares issued as the finder's fee for the Transaction are accounted for as a capital transaction as Canfe does not meet the definition of a business under the Canadian Institute of Chartered Accountant Handbook Emerging Issues Committee Abstract 124, "Definition of a Business". As a result, the net liabilities of \$126,406 at Canfe upon the Transaction have been accounted as a recapitalization which recorded as a reduction to the retained earnings. A breakdown of Canfe's net liabilities as at October 21, 2010 is as follows:

**Net liabilities acquired :**

Cash and Cash equivalents	\$ (255,048)
Prepaid expense	137,864
Receivable	77,989
Accounts payable	(87,211)

**Management Changes**

On March 30, 2011, Robert Bick resigned his position as President and CEO of the Company. On the same date, Graham M. Clark Jr. was appointed as President, CEO and director of the Company.

On March 30, 2011, Peter Bryant resigned his position as director of the Company.

On April 12, 2011, David Velisek was appointed as VP Business Development and Peter Hughes was appointed as Corporate Secretary of the Company.

**Overall Performance**

The following discussion of the Company's financial performance is based on the condensed consolidated interim financial statements for the period ended March 31, 2011, and the audited financial statements for the period ended December 31, 2010.

The condensed consolidated interim statement of financial position as at March 31, 2011 indicates a cash position of \$480,674 (December 31, 2010: \$354,947) and total assets of \$1,970,576 (December 31, 2010: \$1,877,788).

Shareholders' equity is comprised of share capital of \$1,188,377 (December 31, 2010 - \$1,027,776), reserves (other reserve and warrant reserve) of \$1,003,722 (December 31, 2010 - \$1,003,722), accumulated other comprehensive loss of \$966 (December 31, 2010 - \$966), accumulated deficit of \$227,518 (December 31, 2010 - \$169,234) and non-controlling interest of \$366 (December 31, 2010 - \$304) for a total shareholders' equity of \$1,963,249 (December 31, 2010 - \$1,860,994).

Working capital, which is current assets less current liabilities, is \$569,332 as at March 31, 2011, compared to \$477,948 as at December 31, 2010.

During the period ended March 31, 2011, the Company reported a net loss of \$58,284 (\$0.00 basic and diluted loss per share) compared to a net gain of \$488 (\$0.05 basic and diluted income per share) for the period ended March 31, 2010.

As at March 31, 2011, 31,349,617 common shares of the Company were issued and outstanding.

As at March 31, 2011, the Company had no earnings and financed its exploration activities by the issuance of its common shares.

**Results of Operations**

During the period ended March 31, 2011, the Company incurred a net loss of \$58,284 compared to a net gain of \$488 for the period ended March 31, 2010. The operating loss of \$58,284 was mainly due to advertising and promotion fees of \$30,563 (March 31, 2010 - \$Nil) relating to corporate marketing services; consulting fees of \$15,000 (March 31, 2010 - \$Nil) related to management and advisory services provided by a consultant of the Company; transfer agent and regulatory fees of \$9,092 (March 31, 2010 - \$706) and office and administrative expenses of \$2,690 (March 31, 2010 - \$Nil).

---

**GOLDEN FAME RESOURCES CORP.  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2011**

---

During the period from incorporation to March 31, 2011, there were no operating revenues as the Company was still in the exploration stage.

Due to the Company being in its early stage of development, management foresees further increases in the Company's expenditures in the future years resulting from its exploration activities. These expenditures are contingent upon the Company's ability to fund these projects through private placements and other forms of financing. In the event that the Company does not receive the required funding, management will review all on-going expenditures and take appropriate actions to remedy the funding shortage.

**Summary of Quarterly Results**

The following table sets forth selected quarterly financial information for the last eight completed quarters:

	March 31, 2011*	December 31, 2010*	September 30, 2010*	June 30, 2010*
Net (Loss)/Income	(58,284)	(40,575)	(64)	(11)

(Loss)/Income Per Share <sup>(1)</sup>	0.05	(0.11)	(0.00)	N/A

<sup>(1)</sup> Presented on basic and diluted basis.

\* The Company adopted IFRS on January 1, 2011 (effective January 1, 2010) and therefore comparative figures for 2010 are presented under IFRS and figures for 2009 are presented under Canadian GAAP.

Overall, accounting fees, consulting fees, advertising and promotion fees are the major components that caused variances in net loss from quarter to quarter. During the three month period ended March 31, 2011, the major expenses of the Company were advertising and promotional fees of \$30,563 which was due to setting up a website and corporate marketing services, consulting fees of \$15,000, and transfer agent & regulatory fees of \$9,092.

During the quarter ended December 31, 2010, the major expenses of the Company are accounting fees of \$12,776, consulting fees of \$10,000, advertising and promotional fees of \$17,678, and a foreign exchange gain of \$3,209.

During the quarter ended September 30, 2010, the major expenses of the Company were general office and administration fees of \$64.

During the quarter ended June 30, 2010, the major expense of the Company was office and administration of \$11.

---

**GOLDEN FAME RESOURCES CORP.  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2011**

---

During the quarter ended March 31, 2010, the major expense of the Company was transfer agent and regulatory fees of \$706. The Company had foreign exchange gain of \$1,264 for the quarter.

During the quarter ended December 31, 2009, the major expenses of the Company were general office and administration fees of \$1,233 and accounting fees of \$106.

During the quarter ended September 30, 2009, the major expense of the Company was legal fees of \$604.

Due to the completion of the qualifying transaction, which was recorded as a reverse acquisition, the control of the Company was acquired by the corporate officers and former shareholders of Fame. Although legally GFA is regarded as the parent or continuing company, Fame is treated as the accounting acquirer. Consequently, the condensed consolidated financial statements of the Company are deemed to be a continuation of Fame, and GFA is deemed to have been acquired in consideration for its issued and outstanding shares prior to the RTO.

### **Mineral Properties and Deferred Exploration Expenditures**

#### **Goldridge Property**

On October 30, 2009, Golden Fame (USA) Inc. (the "Assignee" or "GF") entered into an assignment agreement with Copper One USA Inc. (the "Assignor") under which the Assignor has assigned 100% of its right, title and interest in the Goldridge Property (also known as the Dos Cabezas Property) for the total price of \$150,000 (paid) and reimbursement of expenses incurred by the Assignor of \$204,413 (paid). In addition, the Company agreed to be irrevocably bound by all the terms identified in the Dos Cabezas Purchase Agreement (see below) with the exception of the obligation of the first payment of \$50,000 to Fronteer Development (USA) Inc. which was made by the Assignor.

#### **Dos Cabezas Purchase Agreement**

On July 31, 2009, Assignor entered into an option agreement with Fronteer Development (USA) Inc. (the "Fronteer") under which Assignor has the right to purchase the Dos Cabezas Property in southern Arizona for the total price of \$400,000 payable over 3 years. To ensure that the Dos Cabezas Agreement is held in good standing, the Company is committed to pay the cash as the following:

July 31, 2009 \$50,000 (paid by Assignor)  
July 31, 2010 \$100,000 (paid)  
July 31, 2011 \$100,000 (paid)  
July 31, 2012 \$150,000 (paid)

On June 3, 2010, Fame USA paid to Fronteer the outstanding balance of cash purchase payments for the Gold Ridge Property of \$350,000. Fame USA now owns the entire interest of Fronteer in the Gold Ridge Property consisting of private property, patented mining claims, and unpatented mining claims, subject to a 2% Net Smelter Returns

The reduction in the exploration expenditures during the prior year pertains to changes in foreign exchange rate between May 31, 2010 and October 21, 2010, the date of the RTO.

### **Algun Dia Gold Project**

On May 17, 2011, the Company, signed an Option Agreement to acquire up to a 70% interest in the Algun Dia gold project east of Guanajuato, Mexico. owned by Senor Rodolfo Rodriguez Aldaco ("Aldaco").

Under the terms of the Agreement, the Company can earn a 70% interest in the Algun Dia project over a three-year period by making payments to Aldaco totaling \$4.3 million, issuing to Aldaco 3 million common shares of the Company, and expending a minimum of \$6.5 million on exploration/development work on the project.

The Company has completed an initial round of geological due diligence analysis and sampling of both surface mineralization and underground workings on the property. The Company's sampling confirmed significant gold, silver and copper mineralization including an underground channel sample across a portion of the vein in the Santa Cecelia drift with 3 meters grading 9.93 ppm gold, 74.1 ppm silver, and 6890 ppm copper. The surface sampling produced a chip sample across 3 meters which assayed 65.2 ppm gold, 35.8 ppm silver, and 1890 ppm copper. Other surface samples of note included a 3-meter chip sample assaying 5.16 ppm gold, 563 ppm silver, and 9430 ppm copper.

Chalcopyrite mineralization is visible in samples from underground and on surface and the Company obtained copper values as high as 2.4% in a 1.2 meter channel sample on

the surface and as high as 1.98% in a channel 1 meter channel sample from underground.

Golden Fame's minimum work expenditure for the first six months is \$2 million to be completed by December 31, 2011. The 2011 exploration program will include drilling to explore for down dip and strike extensions of the productive Santa Cecelia vein, surface mapping and sampling of several other mineralized zones on the property and importantly, completing a new exploration decline on the Santa Cecelia vein.

### **Financing Activities**

The Company engaged in the following financing activities:

During the period ended March 31, 2011, the Company issued 1,070,675 common shares upon the exercise of share purchase warrants for gross proceeds of \$160,601.

### **Liquidity and Capital Resources**

For the quarter ended March 31, 2011, the Company had an accumulated deficit of \$227,518. The Company expects to incur losses for at least the next 24 months. There can be no assurance that the Company will ever make a profit. To achieve profitability, the Company must advance the Goldridge Property through further exploration in order to bring the property to a stage where the Company can attract the participation of a major resource company, which has the expertise and financial capability to take the Goldridge Property to commercial production. There are no assurances that the Company can attract the participation of a major resource company or that the Goldridge Property will be put into commercial production.

For the quarter ended March 31, 2011, the working capital of the Company was \$569,332. Additional financing will be required to fund the cost of continued acquisitions and exploration development of the Goldridge Property as well as to meet its ongoing day-to-day operating requirements. Currently, management is actively searching for new sources of capital for the further development of the Company. There are currently no long-term debts, capital lease obligations, operating leases or purchase obligations.

The Company currently has no established credit lines with any chartered banks or other financial institutions. The Company expects to rely upon equity financing as its primary source of funding. There are no assurances that the Company will be able to negotiate equity financings on terms acceptable to management of the Company or at all.

### **Off Balance Sheet Arrangements**

There are currently no off balance sheet arrangements which could have a material effect on current or future results of operations, or the financial condition of the Company.

### **Related Party Transaction**

On November 1, 2010, the Company entered into a 12 month management and advisory agreement with Baron Global Financial Canada Ltd. ("Baron"), whereby Baron agreed to act as corporate advisor and CFO of the Company in return for a monthly fee of \$5,000. The CFO of the Company is also a Senior Manager of Baron. During the quarter ended March 31, 2011, the Company recorded \$15,000 in consulting fees (2009 – \$Nil).

On June 1, 2011, the Company amended the monthly fee amount to \$15,000.

These transactions were conducted in the normal course of operations, on commercial terms established and agreed to by the related parties, and were recorded at the exchange amount.

### **Critical Accounting Estimates**

The preparation of condensed consolidated interim financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. Financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both the current and future periods.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the balance sheet date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- (a) The provision for income taxes which is included in the consolidated statements of comprehensive loss and composition and quantification of deferred income tax assets and liabilities included in the consolidated statement of financial position.
- (b) The recoverability of exploration and evaluation assets in the consolidated statements of financial position.

### **Financial Instruments**

All financial assets and financial liabilities are initially recorded at fair value and designated upon inception into one of the following categories: held-to-maturity, available-for-sale, loans and receivables or at fair value through profit or loss ("FVTPL").

Financial assets classified as FVTPL are measured at fair value with unrealized gains and losses recognized through profit and loss. Available-for-sale instruments are measured at fair value with unrealized gains and losses recognized in other comprehensive income. Held-to-maturity instruments, loans and receivables and financial liabilities not at fair value but through profit and loss are measured at amortized cost using the effective interest rate method.

---

**GOLDEN FAME RESOURCES CORP.  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2011**

---

The Company has implemented the following classifications for its financial instruments:

- a) Cash and trade receivables have been classified as loans and receivables.
- b) Payables and accruals have been classified as financial liabilities not at fair value through profit and loss.

**Outstanding Share Data**

The Company's issued and outstanding share capital as at the date of this report is as follows:

- (1) Authorized: Unlimited common shares without par value
- (2) As at June 29, 2011 (Report Date), the Company has 55,026,607 common shares, 18,634,700 warrants and 180,000 options issued and outstanding.

**Additional Disclosure for Venture Issuers Without Significant Revenue**

The Company has expensed the following material cost components:

	Period Ended March 31, 2011	Period Ended March 31, 2010
	\$	\$
Consulting Fees	15,000	-
Advertising and Promotion	30,563	-

During the period ended March 31, 2011, \$15,000 in consulting fees was paid to a consultant of the Company to provide management and advisory services to the Company. The transactions were conducted in the normal course of operations, on commercial terms established and agreed to by the related parties, and were recorded at the exchange amount.

During the period ended March 31, 2011, \$30,563 in advertising and promotion fees were paid in relation to corporate marketing services.

**Risks and Uncertainties**

The Company is engaged in the exploration and development of mineral properties. These activities involve a high degree of risk which, even with a combination of experience, knowledge and careful evaluation, may not be overcome. Consequently, no assurance can be given that commercial quantities of minerals will be successfully found or produced.

The Company has no history of profitable operations and its present business is at an early stage. As such, the Company is subject to many common risks to new and developing enterprises, including under-capitalization, cash shortages and limitations with respect to personnel, financial and other resources and the lack of revenues. There is no assurance that the Company will be successful in achieving a positive return on shareholders' investment.

---

**GOLDEN FAME RESOURCES CORP.  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2011**

---

The Company has no source of operating cash flow and no assurance that additional funding will be available to it for further exploration and development of its projects when required. Although the Company has been successful in the past in obtaining financing through the sale of equity securities, there can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favourable. Failure to obtain such additional financing could result in the delay or indefinite postponement of further exploration and development of its properties.

The Company's property interests are located in remote, undeveloped areas and the availability of infrastructure such as surface access, skilled labour, fuel and power at an economic cost, cannot be assured. These are integral requirements for exploration, development and production facilities on mineral properties. Power may need to be generated on site.

The Company is very dependent upon the personal efforts and commitment of its existing management. To the extent that management's services would be unavailable for any reason, a disruption to the operations of the Company could result, and other persons would be required to manage and operate the Company.

The Company competes with other junior mineral exploration companies, some of which have greater financial resources and technical facilities. The business of mineral exploration and extraction involves a high degree of risks and few properties that are explored are ultimately developed into production. In addition to specific risks disclosed throughout this discussion, other risks facing the Company include reliance on third parties, environmental and insurance risks, statutory and regulatory requirements, metal prices and foreign currency fluctuations, share price volatility and title risks.

### **Transition to International Financial Reporting Standards ("IFRS")**

Effective January 1, 2011, IFRS became Canadian GAAP for publicly accountable enterprises. As a result, the Company's interim consolidated financial statements for the first quarter of 2011 are reported in accordance with IFRS, with comparative information for 2010 restated.

The Company developed and executed a changeover plan in order to begin reporting in accordance with IFRS from January 1, 2011. The changeover plan included a diagnostic phase, an impact analysis, evaluation on conversion phase and an implementation and review phase, each of which set out activities to be performed over the life of the project, resulting in the Company's first interim reporting under IFRS for the first quarter of 2011. The implementation and review phase will continue and the company will continue to monitor accounting and regulatory developments and evaluate impacts on our financial reporting, and continuing to fulfill presentation and reporting requirements and culminate in the preparation of our financial reporting under IFRS in 2011.

### **Significant Differences between IFRS and Canadian GAAP in the Company's Financial Statements**

- *Share-Based Payment* ("IFRS 2")

IFRS and Canadian GAAP largely converge on the accounting treatment for share based transaction with only a few differences. For stock options that vest in installments, IFRS 2 requires the Company to determine the fair value of each installment as a separate share option grant while Canadian GAAP treats the entire grant of stock options as a pool and recognize expense on a straight line basis. Under IFRS the Company must make an estimate of stock options that are forfeited before they vest whereas under Canadian GAAP the Company records forfeitures as they occur. The Company has not applied this standard to equity instruments that were granted on or before November 7, 2002, nor has it been applied to equity instruments granted after November 7, 2002 that vested before January 1, 2010.

- *Exploration for and evaluation of mineral resources* ("IFRS 6")

Under the Company's current accounting policy, acquisition and exploration costs of mineral properties are capitalized as incurred. IFRS 6 permits mining companies to retain their existing policies with respect to the capitalization of exploration and evaluation costs until guidance that is more definitively developed in this area. Such guidance is not expected to be issued until after the Company's changeover to IFRS. The Company will retain its existing policies with respect to mining interests and exploration costs.

- *The effects of changes in foreign exchange rates* ("IFRS 21")

The Company has elected not to retrospectively apply the requirements for cumulative translation differences that existed at the date of transition to IFRS. Therefore, the cumulative translation differences for all foreign operations are set to zero at the date of transition of IFRS.

### **Mandatory Exemptions at IFRS Transition Date**

In accordance with IFRS 1, an entity's estimates under IFRS at the date of transition to IFRS must be consistent with estimates made for the same date under previous GAAP unless those estimates were in error. The Company's IFRS estimates as at the Transition Date are consistent with its Canadian GAAP estimates as at that date.

### **Reconciliations from Canadian GAAP to IFRS**

The Company's interim condensed consolidated financial statements for the first quarter of 2011 include reconciliations from our previous Canadian GAAP reporting to IFRS for our opening balance sheet as at January 1, 2010, our comparative balance sheets as at March 31, 2010 and December 31, 2010 and our statements of comprehensive loss, cash flows and changes in shareholders' equity for the three months ended March 31, 2010 and the year ended December 31, 2010.

The Company's significant accounting policies under IFRS are disclosed in our interim condensed consolidated financial statements for the first quarter of 2011, and resulting accounting changes are highlighted in our reconciliations from previous Canadian GAAP reporting.

### **Future Accounting Standards and Interpretations**

Certain new accounting standards and interpretations have been published that are not mandatory for the March 31, 2011 reporting period. The following standards are assessed not to have any impact on the Company's financial statements:

(a) IFRS 9, Financial Instruments

The IASB intends to replace IAS 39 – Financial Instruments: Recognition and Measurement (“IAS 39”) in its entirety with IFRS 9, *Financial Instruments* (“IFRS 9”) in three main phases. IFRS 9 will be the new standard for the financial reporting of financial instruments that is principles-based and less complex than IAS 39, and is effective for annual periods beginning on or after January 1, 2013, with earlier adoption permitted. In November 2009 and October 2010, phase 1 of IFRS 9 was issued and amended, respectively, which addressed the classification and measurement of financial assets and financial liabilities. IFRS 9 requires that all financial assets be classified as subsequently measured at amortized cost or at fair value based on the Company's business model for managing financial assets and the contractual cash flow characteristics of the financial assets. Financial liabilities are classified as subsequently measured at amortized cost except for financial liabilities classified as at fair value through profit or loss, financial guarantees and certain other exceptions. The IASB has issued exposure drafts addressing impairment of financial instruments, hedge accounting and the offsetting of financial assets and liabilities, with comments due in March and April of 2011. The complete IFRS 9 is anticipated to be issued during the second half of 2011. The Company is currently evaluating the impact the final standard is expected to have on its financial statements.

(b) IFRS 10, Consolidated Financial Statements

IFRS 10 establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. IFRS 10 supersedes IAS 39, *Financial Instruments: Recognition and Measurement*. The Company has not early adopted the standard and is currently assessing the impact it will have on the condensed consolidated financial statements.

(c) IFRS 11, Joint Arrangements

IFRS 11 establishes principles for the financial reporting by parties to a joint arrangement. IFRS 11 supersedes current IAS 31, *Interests in Joint Ventures* and SIC-13, *Jointly Controlled Entities – Non-Monetary Contributions by Venturers*, and is effective for annual periods beginning on or after January 1,

2013. Earlier adoption is permitted. The Company is currently evaluating the impact of this standard on its condensed consolidated financial statements.

(d) IFRS 12, Disclosure of Interests in Other Entities

IFRS 12 applies to entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity. IFRS 12 is effective for annual periods beginning on or after January 1, 2013. Earlier adoption is permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

(e) IFRS 13, Fair Value Measurements

IFRS 13 defines fair value, sets out in a single IFRS framework for measuring value and requires disclosures about fair value measurements. The IFRS 13 applies to IFRSs that require or permit fair value measurements or disclosures about fair value measurements, except in specified circumstances. IFRS 13 is to be applied for annual periods beginning on or after January 1, 2013. Earlier adoption is permitted. The Company is currently assessing the impact of the standards on its condensed consolidated financial statements.

The Company anticipates that the application of these standards, amendments and interpretations will have no material impact on the results and financial position of the Company.
